

Water Resources Guidance Memorandum No. WRD06-100 - Ground Water Withdrawal Permit Procedures Manual

The Ground Water Withdrawal Permit Procedures Manual has been reviewed and revised by the program staff in both the regional and central office programs. This revised guidance replaces OWRM Guidance Memorandum No. 99-2005 (dated June 16, 1999). Please advise your staff to discontinue use of the previous manual and begin using the new manual effective June 1, 2006.

This manual provides procedural guidance to the staff. This document is guidance only. It does not establish a binding norm and is not finally determinative of the issues addressed. Agency decisions in any particular case will be made by applying the Ground Water Management Act of 1992 and implementing regulations on the basis of the site-specific facts.

Electronic Copy:

An electronic copy of this guidance is available in the Water Resources section of DEQ's website at <http://www.deq.virginia.gov>.

Contact Information:

Questions about the procedures manual can be directed to Robin Patton, Ground Water Withdrawal Permitting Program, (804) 698-4085, rwpatton@deq.virginia.gov.

Disclaimer:

This document is provided as guidance and, as such, sets forth standard operating procedures for the agency. However, it does not mandate any particular method nor does it prohibit any particular method for the analysis of data or establishment of a permit limit. If alternative proposals are made, such proposals should be reviewed and accepted or denied based on their technical adequacy and compliance with appropriate laws and regulations.
